Post Production Master Class

NEW YORK: SEPTEMBER 22-23, 2011
THE NEW YORKER HOTEL

BURBANK: NOVEMBER 4-5, 2011
BURBANK MARRIOTT

Innovation has created a dramatic post-production revolution, with workflows expected to continue evolving for the foreseeable future.

Createasphere's Post Production Master Class is an invitation only global summit of post production professionals. Developed in concert with industry partners, this is the only event of its kind to gather thought leaders and craft the future of post.

Topics will include:

- **RAW through Post:** How digital camera data can successfully go from set to screen.
- **The File-Based Workflow:** How powerful file-based workflows are changing the way post works and delivers.
- **On Set Is Changing Post:** Emerging tools and technologies are on set, from dailies through DI.
- **Keynote Conversation:** From a leading project, the cinematographer and editor talk about the modern workflow.
- **Sponsor Case Study:** Meet the team behind the scenes of a major production, who have used the tools from our sponsors to create great entertainment.
- Up close and expert demo suites for leading technologies.

2010 Attendees:
